Dutch Greeter
Hearts for Hospice
Thursdays in Pella

Education:

High School: Indian River
Higher Education: Delaware Technical Community College
Brigham Young University
Other: Iowa Assoc. of Realtors-Real Estate Licensing

Working in Marion County:

I love the sense of community in Marion County. It is truly a treasure in Iowa. This is an area where my coworkers and clients have become both friends and family. I love working in an environment where my community and employer truly support me and want to see me succeed.

Living in Marion County:

The best part of living in Marion County is the refreshing step away from big city life while not sacrificing amenities. There are so many activities local activities including festivals and events, and new ones are being created each year. I am from a metropolitan area and I truly appreciate the hometown feel of Marion County, complimented by city life a short drive away. I love the rich history in Pella with its historic culture and sense of pride for one's ancestors.

Career Advancement Opportunities:

As Pella continues to develop, I think that many opportunities will arise. I work in an industry that is always expanding. Growth in housing means more residents working and living in our community, more relationships to be created, more businesses and amenities.

Favorite Place to Relax:

The bike trails, specifically the Volkswagen Trail, is a personal favorite of mine! One thing I really enjoy is going for an evening bike ride on the trails with friends, followed by a local bite to eat. It is a unique opportunity to enjoy the beautiful Iowa scenery, get exercise, and savor some good food.

Career Advice to Teens:

Start now. My industry is based on relationships. Develop your character. Be a trustworthy, ethical, honest, and caring person. Learn to want the best for others and truly care about people. Real estate is probably the largest purchases someone will make in their life. Be someone people have confidence in and rely upon. Foster your relationships and create new ones. Make this a community where people want to stay for years and make this area their home.
