Working in Marion County:

My commute is easy! But on a more serious note, the people are the best part. Everybody knows everybody and is from a similar small community with close knit ties. IF tragedy strikes, you know your co-workers and community will band together to help each other out.

Living in Marion County:

Marion County is a one stop shop. There is a variety of work, housing and entertainment options throughout the county to meet all your needs. Personally, the small community of Pleasantville paired with the easy commute to Pella was very attractive to us.

Career Advancement Opportunities:

Marion County is very lucky in the diversity of employment that provides tons of growth opportunities and career advancement. Personally, I entered the workforce right out of high school, not knowing what I wanted to do long term. I worked hard and grasped any opportunity that was thrown my way. Once I was introduced to a leadership role, I quickly realized the opportunities that were available.

Favorite Place to Relax:

My favorite place to hang out is in a buddy's garage. Pleasantville is lucky to have the Checkerboard Restaurant, Smokey Row Coffee Co. and Frosty's Pub & Grub as great places to hang with friends, with or without kids.

Career Advice to Teens:

If you treat people with respect and work hard, the sky's the limit. Make good financial decisions early, because you are never too young to start investing.
