Pella, Knoxville and Marion County are collaborating with the Greater Des Moines Partnership to map Internet speeds throughout an 11-county Central Iowa Region.

With many working full-time from home and children in virtual classrooms this past year, the need for speed has never been more apparent!

**WE NEED YOUR HELP.** Whether you are within the city limits or live in rural Marion County your input will help measure broadband Internet availability and identify areas that do not currently meet consumer needs and expectations.

*Please take the survey on a landline or device connected to wifi --not a cellular connection.*
